

Premier Acoustic Product Datasheet

Model: JCO Series column loudspeakers

Description

A range of five slimline metal column speakers with power ratings from 10 watts to 60 watts.

Finished in ivory, these high quality speakers give enhanced speech quality and excellent sound projection.

All JCO speakers also feature the Low-Cut switch. This reduces base response to aid the simple solution to feedback issues often encountered in large, multi- microphone auditoria.

Suggested installations and applications – Any large area, such as a church, requiring a discreet sound system with wide coverage and long projection.

Specification
