

## ETCLIP CUSTOMER SERVICES LOOP

- Stand alone using its internal microphone
- External microphone socket
- Easy grip paper clip
- Current mode output
- Plug top charger supplied
- Compressor & noise limiter
- True operation indicator
- 1.5 metre loop field
- Complies with IEC118-4 (BSEN60118-4)

The attractive lightweight case has been designed for customer service representatives or any staff members coming into contact with hearing impaired customers. The microphone is integrated into the surface of the clip-board and the loop amplifier covers an area of up to 1.5 metres around the clipboard.

The top face is designed as a hard writing surface, and the clip is designed for multi disability customers (arthritis, poor vision). The front face is clearly signed in line with RNIB guidelines with the IEC symbol for induction loop amplifiers to inform customers the facility is available.

A battery low light is provided on the rear, and the unit can be operated whilst charging. The high capacity battery allows for up to 8 hours operation from a single charge. The unit can be carried in the PETCS or PETCSL carry cases along with the PSU and any microphones.
